

CARBON, SOOT & GRAPHITE

HEAVY OILS TARS & SOLVENT BASED PRODUCTS

WATER REPELLENT GREASE & WAXES

LIGHT OILS, GREASE & SOIL

PROTEIN DEPOSITS

SYNTHESOL PERFORMS EXCEPTIONALLY WELL IN A VARIETY OF APPLICATIONS; CUTTING HEAVY OILS, CRUDE, ASPHALTENES, LUBES AND GREASES EVEN IN EXTREMELY COLD OPERATING CONDITIONS. SYNTHESOL IS NON-FLAMMABLE AND PRODUCES NO HARMFUL VAPOURS MAKING IT A SAFE REPLACEMENT FOR HARMFUL SOLVENTS.

+ HEALTH

- No long term health effects
- Non-carcinogenic
- Low toxicity
- Safe on skin (non-corrosive)

△ SAFETY

- Non-flammable
- Non-corrosive
- No special protective gear required
- Low odour
- No prohibited petroleum-based solvents

♻️ ENVIRONMENT

- Limited effect on aquatic life
- Low VOCs (Volatile Organic Compounds)
- Safe alternative to hazardous solvents
- No ozone-depleting substances

PERFORMANCE

SyntheSol is the very latest in our solvent based technology and is ideal as a degreasing solution for parts washers, ultrasonic tanks and pressure systems. This product is not water soluble.

SyntheSol offers true advancements in worksite safety, performance and value as a drop-in replacement for hazardous solvents like Varsol. SyntheSol is non-flammable and contains no diesel fuels, benzene, toluene, xylene or oxygenated compounds, significantly reducing the users exposure to harmful fumes, increasing user safety.

SyntheSol is designed with a high soil loading capacity and low evaporation rate, enabling the product to last significantly longer than conventional solvents in certain applications. The inhibited version of SyntheSol protects parts and equipment from environmental stresses that cause rust and corrosion.

PRODUCT APPLICATIONS

- Dip tanks
- Parts washers (static & circulating)
- High pressure and high temperature washers with low foaming results
- Centrifuge sample cuts
- Grease, pipe dope, lubes, distillates
- Drilling & service rigs, oil tanks, well heads
- Draw works, blocks, swivels & hoists
- Wireline trucks – equipment & tools
- Casing, drill pipe threads, filters
- Heavy oil, bitumen, asphaltenes, tar
- Underground mining – parts & equipment
- Washing pipeline pigs
- Soaking parts prior to storage can help protect against rust and corrosion
