

TECHNICAL DATA SHEET

PREVACLEAN 1241

Heavy Duty Cleaner

PRODUCT DESCRIPTION

An industrial cleaner powerful enough to get the job done and safe for employees to handle and dispose of. PrevaClean 1241 is extremely effective in cleaning and degreasing the exterior/interior of holding tanks & vessels, composting & organic matter, as well as shop floors & equipment and much more.

PrevaClean 1241 is a highly buffered liquid product with high pH and very low suds; great for applications where suds are not favourable and high pH levels are needed to get the job done quickly.

APPLICATION AND USAGE

- Cleaning closed loop heating and cooling systems. PrevaClean 1241 effectively breaks up and cleans all sludge and debris lodged on the walls of pipes, sensors and drains.
- Spray cabinet type parts washers. With very low suds and high cleaning ability this product is very effective at a 15:1 ratio and is safe on soft metals and plastics.
- Heavy duty cleaner for concrete floors. Highly alkaline pH and low suds allows this cleaner to penetrate all pores and cracks of the concrete to lift out oils and greases.
- Effective cleaner for the printing industry. PrevaClean 1241 has been very successful in cleaning water based inks on Analox rolls. If used regularly all dried ink in the cells will be removed eliminating the need for soda or dry ice blasting.
- For removing protein based greases. This product is an outstanding degreaser for protein based greases that accumulate on land fill equipment and garbage disposal trucks & loaders. Customers involved in composting will use this product to clean containers, conveyers, shredding equipment and compactors.
- Excellent for heavy degreasing on equipment where water based degreasers are preferred at a 1:1 ratio up to 30:1 with excellent results.

HANDLING:

Handling: PrevaClean 1241 does not contain volatile components. Proper PPE is recommended when handling. Consult the SDS prior to handling. Please check for compatibility prior to blending with other chemicals including neutralizing agents.

Storage: PrevaClean 1241 should be stored in a cool, dry place.

AVAILABILITY:

PrevaClean 1241 is available in bulk, tote or drum quantities.
