

HEAVY DUTY INDUSTRIAL CLEANING SCAVENGER

H₂SOL HAS BEEN ENGINEERED TO EFFICIENTLY SCAVENGE HYDROGEN SULPHIDE, VARIOUS MERCAPTANS AS WELL AS HAZARDOUS LEL COMPONENTS SUCH AS BTEX AND OTHER VOCs. IN ADDITION TO ITS SCAVENGING POWER H₂SOL HAS LIGHT TO MEDIUM CLEANING PROPERTIES, SIGNIFICANTLY REDUCING TURN-AROUND TIME IN MANY APPLICATIONS.

+ HEALTH

- Non-carcinogenic
- Odourless
- Low toxicity

△ SAFETY

- Non-flammable
- Non-corrosive
- Not regulated under TDG
- Non-triazine, non-amine chemistry
- Reacts with pyrophoric FeS to reduce fire hazards

♻️ ENVIRONMENT

- No VOCs

PERFORMANCE

H₂Sol is not a masking agent but actually knocks down H₂S gas and other mercaptans in both aqueous and hydrocarbon solutions. H₂Sol is a water-soluble solution that is non-corrosive and contains no harmful carcinogens or hidden toxins making it safe for both the operator and the environment. Another safety feature of H₂Sol is its ability to reduce fire hazards when reacting with pyrophoric FeS.

H₂Sol is your solution to knock down any H₂S challenges you face with an industry leading cost to treat together with an unmatched safety profile. In many applications H₂Sol provides additional value with light to medium duty cleaning properties significantly reducing turn-around time.

PRODUCT APPLICATIONS

- Removal of concentrations of hydrogen sulphide dissolved in fluids contained within lines, tanks, tank trucks and vessels
- For use in storage tanks or vessels containing sour fluids
- Batch treatment
- Sour water stripper
- Septic systems
- Wastewater ponds, or storage tanks
- Waste collection tanks in food processing facilities
