

# MEGASOL<sup>s</sup>

DEGREASING SCAVENGER

# HEAVY DUTY DEGREASING SCAVENGER

ALL THE PROPERTIES OF THIS INDUSTRY LEADING HEAVY DUTY DEGREASER NOW AVAILABLE WITH H<sub>2</sub>S SCAVENGER CHEMISTRY. MEGASOL-S IS THE PERFECT BLEND OF CHEMISTRY FOR SITUATIONS REQUIRING HEAVY DUTY CLEANING AND DEGREASING WHEN TRACE AMOUNTS OF H<sub>2</sub>S MAY BE PRESENT.

## + HEALTH

- Low toxicity
- Non-carcinogenic
- Non-sensitizing
- No long term health effects
- Low odour

## △ SAFETY

- No special protective gear required
- Non-flammable
- No hidden toxins
- Not regulated under TDG

## ♻️ ENVIRONMENT

- Readily biodegradable
- Limited effect on aquatic life
- No ozone-depleting substances
- Safe alternative to hazardous chemicals

## PRODUCT APPLICATIONS

- Cleaning / degreasing where trace amounts of H<sub>2</sub>S may be present
- Oil refineries
- Gas plants
- Smelters
- Tanks, heavy equipment, well heads
- Waste collection tanks in food processing facilities
- Oil sands, bitumen, heavy crude
- Pumps, motors
- Oilfield equipment, service rigs, downhole tools, BOPs
- Sludge & oil field tanks – asphaltenes, waxes, heavy grease & invert muds
- Pipeline tool cleaning and repair
- Environmental cleanup

## PERFORMANCE

Many industrial degreasers perform well on pure hydrocarbons but struggle to achieve the desired cleaning results when contaminants like soil, mud and sand are present. The powerful surfactants go to work breaking down these contaminants, while the complex solvency of MegaSol-s aggressively penetrates and emulsifies heavy oils like bitumen and tar, all while scavenging trace amounts of H<sub>2</sub>S. MegaSol-s can be used in combination with our stand-alone scavenger H<sub>2</sub>Sol when known levels of H<sub>2</sub>S are present.

MegaSol-s offers this extraordinary performance without compromising environmental integrity or the health and safety of the user. MegaSol-s has a wide range of uses in various applications due to its high safety rating and low odour together with its ability to aggressively penetrate hydrocarbons while scavenging tramp H<sub>2</sub>S and other mercaptans.

MegaSol-s can be safely used on hot surfaces and will not damage paint or decals, rinsing totally free with no residue left behind.

SAFETY AND PERFORMANCE YOU CAN TRUST
